

Monthly Project Newsletter

Provided by Valard

February 2024, Issue #47

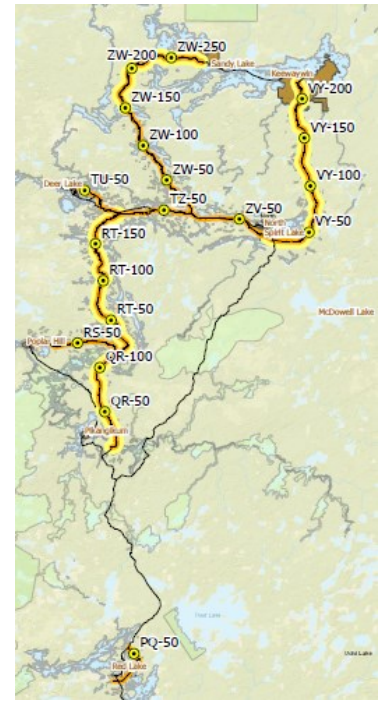

English Version

Valard Construction was selected by Wataynikaneyap Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikaneyap Power Transmission Project in Northwestern Ontario, Canada.

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

* Yellow outline indicates work areas.

PROJECT MILESTONE - TOWER INSTALLATION ACTIVITIES COMPLETE

Pictured: the last structure on the project to be installed, VY210 in Group 3 on Keewaywin First Nation Homelands

Valard is proud to announce the completion of all tower installation activities on the Wataynikaneyap Transmission Project.

To date, there have been 3061 Guyed structures and 1171 self-support structures installed on this project.

Valard congratulates all the hardworking crews and the Participating First Nations for this momentous milestone!

Monthly Project Newsletter
