

Valard Construction was selected by Wataynikaneyap Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikaneyap Power Transmission Project in Northwestern Ontario, Canada.

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

* Yellow outline indicates work areas.
